
OOOR Use Cases – Take 3

Joint Ontolog-OOOR Panel Discussion

Ken Baclawski and Todd Schneider

April 1, 2010

Purpose of Session

- OOR prototyping is now occurring
 - Several deployed instances
 - Uploaded ontologies
 - Experiments with federation
- Revisit the requirements and use cases for the OOR in light of these experiences
 - **OOB Requirements** are on a wiki page
 - **Use Case Descriptions** are available

Session Organization

- Introduction
- Panel Presentations
 - Todd Schneider
 - Matthew Hettinger
 - Ken Baclawski & Máximo Gurméndez
- Open Discussion

OOB Requirements

- Currently scattered in several locations
- Ontology Summit 2008 sessions on rationale, expectations and requirements:
 - Session on 27 March 2008
 - Session on 3 April 2008
- Wiki page at [OpenOntologyRepository_Requirement](#)
- Session on longer term issues on 6 August 2009
- OOB Sandbox and OOB Requirements Session on 15 October 2010

Panelists

- **Todd Schneider: Review of the goals, assumptions, principles and core requirements**
- **Matthew Hettinger: Use cases and requirements for the OOR (and SIO) in the enterprises *as* systems collaborative work environment**
- **Ken Baclawski & Máximo Gurméndez: Quality and gatekeeping use cases for the OOR**
