

```
package JUnitTests;

import junit.framework.Test;
import junit.framework.TestSuite;

public class AllTests {

    public static Test suite() {
        TestSuite suite = new TestSuite("Test for JUnitTests");
        //JUnit-BEGIN$
        suite.addTestSuite(MurkwoodSpider3Test.class);
        suite.addTestSuite(BuyAgentTest.class);
        //JUnit-END$
        return suite;
    }
}
```
