```java
package player.satsolver;

import edu.neu.ccs.satsolver.PairI;

public class Pair implements PairI {

  private final double fraction;
  private final int relationNumber;

  public Pair(int relationNumber, double fraction) {
    this.relationNumber = relationNumber;
    this.fraction = fraction;
  }

  public double getFraction() {
    return fraction;
  }

  public int getRelationNumber() {
    return relationNumber;
  }

}
```
